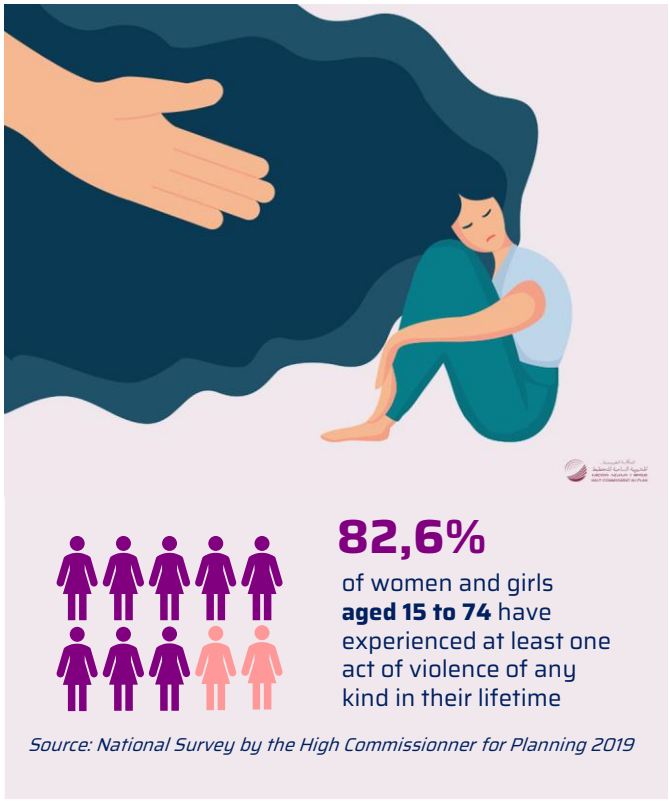
DCAF and the Adala Association "for the right to a fair trial" invite you to a webinar to discuss their new report *"Improving the judicial response to violence against women in Morocco".*

The study combines an analyses of how incidents of VAW are dealt with by the judiciary with an assessment of how women victims of violence perceive the obstacles to accessing justice.

The report aims to contribute to dialogue on inclusive policies and practices, taking into account the human security needs, rights and protection of women victims of violence.

Join us to find out more about the report and the challenges to improving the institutional response to violence against women in Morocco and in other contexts (Eastern Europe and Sub-Saharan Africa).


Please note that the webinar will be held mainly in English with an interpretation in French.
