**CSOs** have limited influence in reporting on the **2030 Agenda** and are largely dependent on the engagement by states. This event will draw on the lessons of the **Universal Periodic Review (UPR)** process and evaluate how these lessons could be applied to the **SDGs**, in particular SDG16, and vice versa.

This discussion is particularly relevant to **human rights** and **development** actors, who will have the opportunity to share experiences and learn from each other in a roundtable discussion.
